This project will replace the existing bridge on SR 29 BU/South Wayne St/ US 441 BU over Fishing Creek in Baldwin County. The project site is within the City of Milledgeville in Land Lots 286, 285, 291, and 292. The site is also located in the 320th Georgia Militia District (GMD).

The bridge will be closed during construction and traffic will be routed to an offsite detour. It is estimated that construction will last for about 18 months. The intersection of South Wayne St and Andrews St will be closed for approximately 30 consecutive days of the construction period to raise the intersection in association with raising the bridge and for relocation of the traffic signal poles. Access to local business driveways will be maintained throughout construction.

NOTE: Ordinarily the maps or plats would be available for public review at our area office. Due to current COVID-19 measures, members of the public may not be allowed to enter state buildings at this time. We apologize for the inconvenience. Anyone with questions or concerns about the project should call or email the area manager listed below. To obtain copies of the drawings, maps or plats, please follow the instructions outlined below.
